>> Probably the hotel since no one will be at the office. Keshema is coming over to St. John for a 5:30pm St. John recycling partnership meeting. You are more than welcome to come to that but it's not essential that you be there. You might be better off going to the hotel. Our hope is to be back at the hotel by 8 but don't wait for us for dinner. We will call u when we arrive and we can meet up then. The big unknown is the pesticide situation. I just brought Eric Schaaf up to date on the phone. We need to contact terminex in the morning to ensure the applicator is not out applying Tomorrow and that the supply is secured. The osc attorney is Wilkie U might want to talk with Eric. I asked him to talk with vernessa with cid

and cc Jose to let him know u are ok on your own. When u arrive I will update you. Geoff is doing a  
masterful job and we are coordinating with oeca and atsd and a methyl bromide expert in Hq who jim  
jones directed me to. Our focus is this complex where there are at least three units that were feared along  
with ensuring this does not happen at other units. Unfortunately the family is very sick and they are trying  
to move one of the teenagers to a hospital in Miami. Geoff put the physician in touch with atsd for help  
on how to treat the patients.

>>>>>> Hi Catherine I am currently meeting with Geoff garrison and I am afraid that the St. John potential pesticide poisoning situation is very involved and Geoff needs to stay on St. John to deal with many moving parts He feels very bad about not accompanying you Tomorrow but we both think he should stay in St. John. Here is our proposal. Take a cab from the airport to the hovensa main gate. Geoff will alert Catherine elizee the environmental coordinator for hovensa (cell 340 690 6603) to meet you at the reception area and give you the tour. She is professional and cooperative. After your tour just take a cab back to airport and Catherine will help coordinate. Geoff will contact Catherine this evening. Let me know if this is good for you. Tx. Judith
